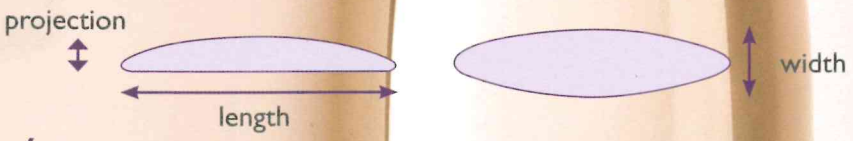
LS03195	195	57	27	165

The dimensions of our implants can differ slightly from the data below. Production upon request of a textured envelope (reference LST).



- Created for reconstructive and aesthetic surgery.
- Insert pocket allowing easier insertion.

Pocket easing insertion

Our calf implants are sold sterile, single-use, by unit.

CONTINUITY Production know-how mastered for almost 30 years.

RELIABILITY Biological and mechanical evaluation of end products. Visual controls on 100 % of implants at each step of the manufacturing process.

TRACKING Each implant is identified by a unique serial number allowing tracking from the raw materials used to its implantation.

PEACE OF MIND Highly qualified personnel working in clean room.

This document is dedicated to health care professionals. According to the Medical Device Directive 93/42/EEC, the calf implants are Class IIb medical devices manufactured by Groupe SEBBIN and are intended to be used in the context of a plastic, reconstructive and cosmetic surgery. These devices are CE marked by the notified body mdc medical device certification GmbH number 0483. Please read carefully the instructions for use before using. These devices may not be reimbursed by the health insurance organizations.
