The absorbable new standard in skin closure for plastic surgery

An absorbable staple for skin closure

- Fast
- Cosmetic
- Eliminates needlesticks
- Low maintenance wounds
- Reduces hand fatigue

“The absorbable stapler has reduced our major procedure times by as much as 40 minutes, enhancing our productivity and saving money.”

Medical Director
Plastic and Reconstructive Surgery

“In conclusion, the closure of contaminated wounds with the INSORB Staples is a superior choice to [the braided absorbable] suture because they have a significantly (p=0.009) lower incidence of infection. The INSORB Staple is a revolutionary advance in subcuticular skin stapling.”
